As a Saudi software engineer, I have 4 years of professional experience from Canada in designing and developing mobile/web applications in addition to teaching and providing IT services.

Education

Master's Degree in Computer Science
Laurentian University - Sudbury, CANADA
May 2016

Bachelor's Degree in Engineering Computer
Al-Baha University - SAUDI ARABIA
June 2011

Work Experience

 **Department Head and Instructor of Web/Mobile Application Development**
Pacific Design Academy, Victoria - CANADA *August 2017 - July 2019*

- As a department head, I led the academy developers and instructors to teach web/mobile programming languages and technologies.
- As an instructor, I successfully taught and prepared students for careers in big corporations.
- As an instructor, I taught and supervised students in developing and deploying websites for Victoria foundation and charities.

 **Web Developer & IT Support Manager**
reThink Green Sudbury, Sudbury - CANADA *June 2016 - June 2017*

- Designed and developed websites for small to medium enterprises managed by reThink Green.
- Provided IT troubleshooting and technical support for these corporations.

 **Web Developer and Designer**
Independent Contractor, Sudbury - CANADA *January 2015 - December 2015*

 **IT Support Technician (Upskilling Program)**
Albaha University - IT Centre, Albaha - SAUDI ARABIA *July 2010 - October 2010*
